[VERSION: GEMINI 3 INTEGRATED] [STATUS: STABLE RELEASE]

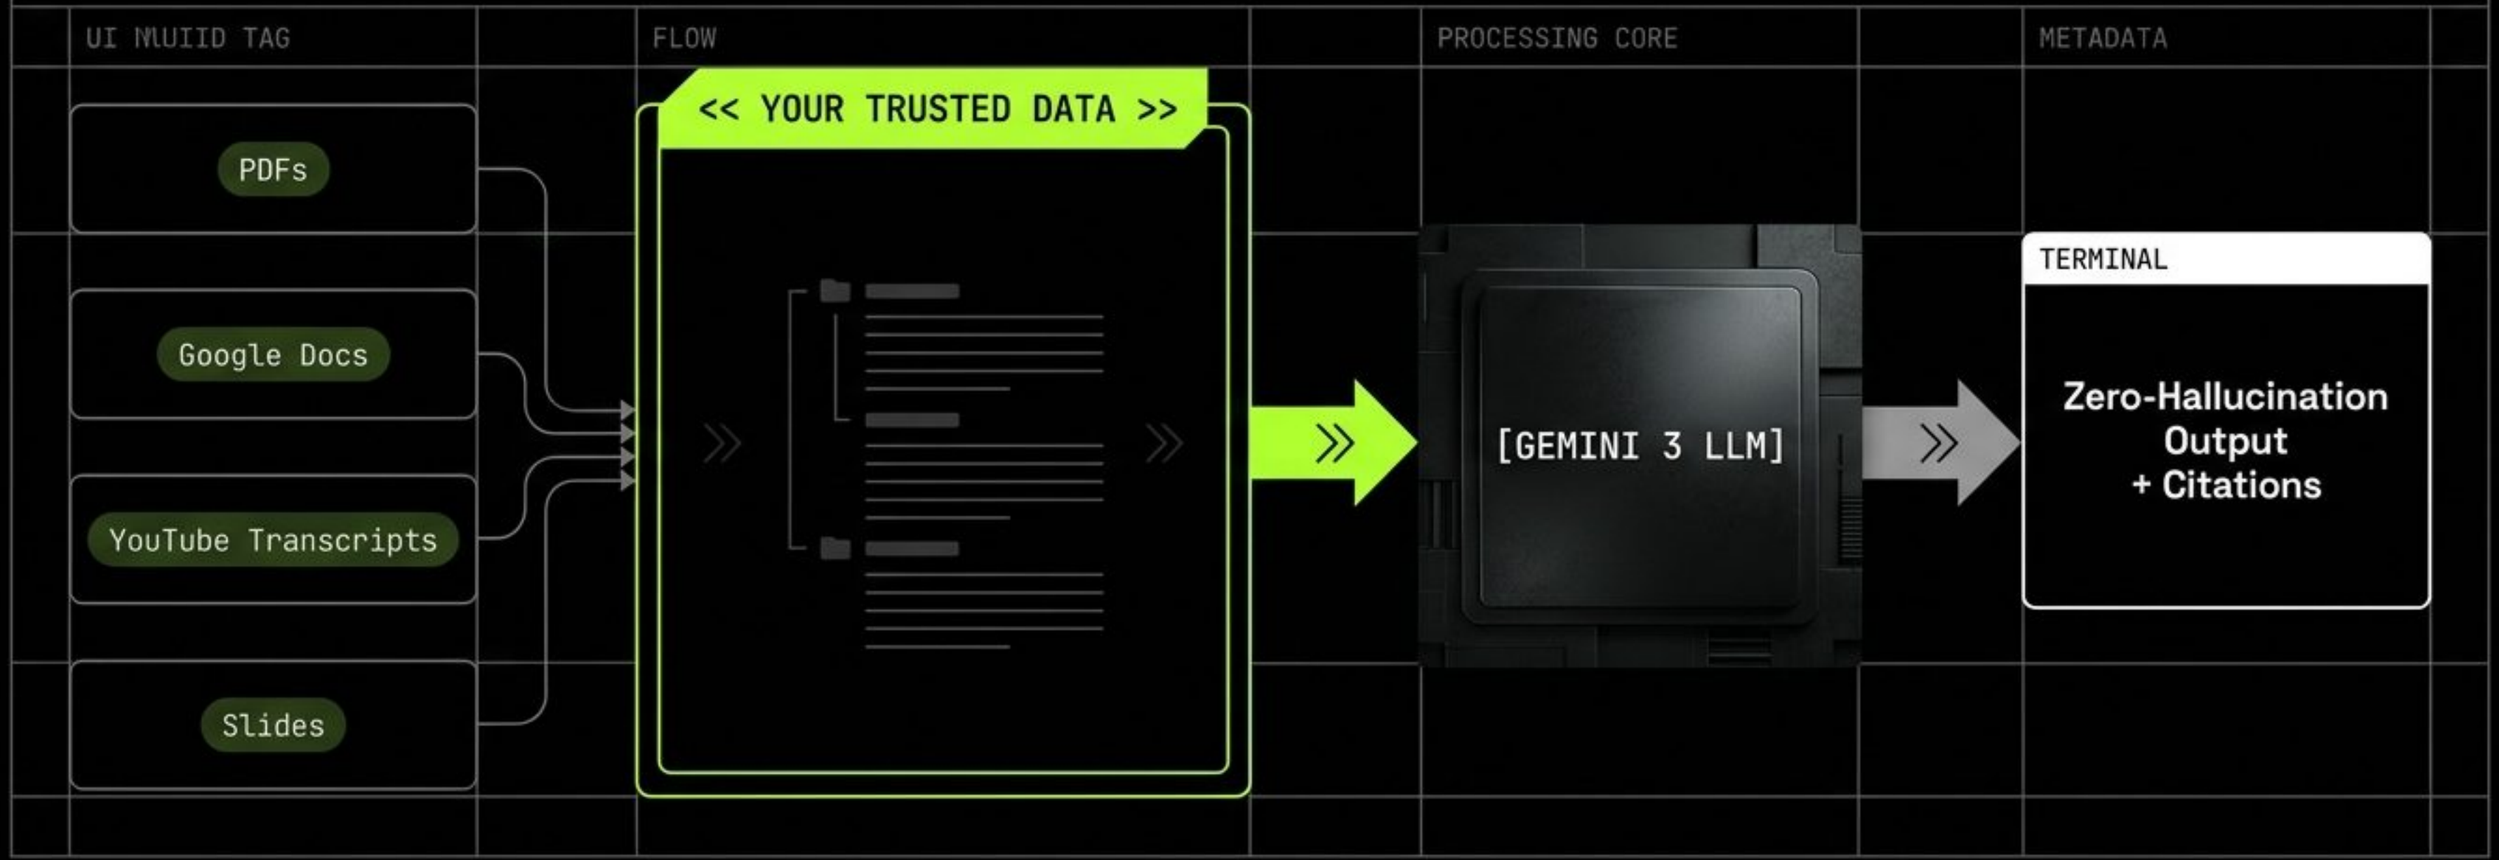

# Google NotebookLM

## AI Research & Thinking Partner

# GROUNDING THE GEMINI ENGINE EXCLUSIVELY IN YOUR TRUSTED DATA.

Unlike standard LLMs that guess based on broad training, NotebookLM operates strictly within a **secure sandbox** of your uploaded materials, providing exact citations for every generated insight.

# Rapid iteration from experimental prototype to enterprise standard.

May 2023

**[PROJECT TAILWIND]**

Initial experimental AI notebook launch.

Oct 2024

**[STABLE RELEASE]**

Removal of experimental status; widespread rollout.

Dec 2024 / Feb 2025

**[ENTERPRISE & PLUS]**

Introduction of Google Workspace and Google One AI Premium tiers.

Late 2025 / 2026

**[MULTIMODAL EXPANSION]**

Integration of Gemini 3, Data Tables, and Nano Banana Pro image generation.

# Transforming raw sources into multimodal output formats.

[MEDIA OVERVIEWS]

Generating 80+ language podcast discussions and narrated video summaries.

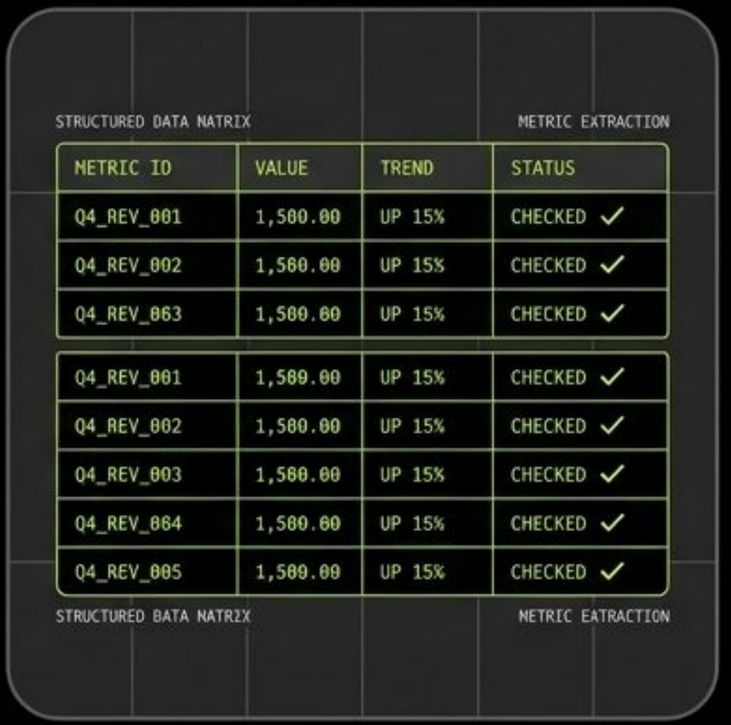

[NANO BANANA PRO]

Synthesizing raw data into polished slide decks and infographics.

[DATA TABLES]

Extracting complex metrics into easily scannable, structured grids and flashcards.

| METRIC ID | VALUE | TREND | STATUS |
|---|---|---|---|
| Q4_REV_001 | 1,500.00 | UP 15% | CHECKED ✓ |
| Q4_REV_002 | 1,500.00 | UP 15% | CHECKED ✓ |
| Q4_REV_003 | 1,500.00 | UP 15% | CHECKED ✓ |
| Q4_REV_001 | 1,500.00 | UP 15% | CHECKED ✓ |
| Q4_REV_002 | 1,500.00 | UP 15% | CHECKED ✓ |
| Q4_REV_003 | 1,500.00 | UP 15% | CHECKED ✓ |
| Q4_REV_004 | 1,500.00 | UP 15% | CHECKED ✓ |
| Q4_REV_005 | 1,500.00 | UP 15% | CHECKED ✓ |

# Condensing complex documents into interactive audio discussions.

The Audio Overview protocol transforms dense research into a conversational, two-host podcast format. Users can actively participate in the AI discussion via the interactive Join function.

# Absolute isolation of organizational data from foundational models.

Deployed via Google Workspace, Google Workspace for Education, or Google Cloud, enterprise data remains strictly private. User uploads, queries, and outputs are never utilized to train Google's generative foundational models.

[✓] Zero Third-Party Sharing

[✓] No Foundational Training

[✓] Private By Default

NotebookLM

# Deploying targeted workflows across organizational units.

## [LEARNING / RESEARCH]

Upload lecture recordings and papers

« Generate study guides, flashcards, and deep research connections.

## [SALES / SUPPORT]

Ingest competitor PDFs and call transcripts

« Output fast automated responses and customized pitch presentations.

## [TRAINING]

Feed boring compliance manuals and SOPs

« Transform into highly engaging interactive video summaries.

## [MARKETING]

Supply dense webinars and market reports

« Extract highly visual social media infographics and campaign assets.

NotebookLM

# Scaling capacity thresholds across four distinct user tiers.

| STANDARD | PLUS | PRO | ULTRA |
| --- | --- | --- | --- |
| [✓] 50 sources/ notebook | [✓] 100 sources/ notebook | [✓] 300 sources/ notebook | 600 sources/ notebook |
| [✓] Standard audio/video generations (1x) | [✓] 2x generation capacity | [✓] 5x generation capacity | 50x generation capacity |
| | [✓] Early feature access | [✓] Priority Gemini access | [✓] Zero watermarks on outputs |

# Industry consensus points to a generational shift in AI interfaces.

> It’s one of the most compelling and completely flabbergasting demonstrations of AI’s potential yet.
>
> – [THE WALL STREET JOURNAL]

> This could be the next killer app in generative AI.
>
> – [CNBC]

> Touching on a whole new territory of highly compelling LLM product formats. Feels reminiscent of ChatGPT.
>
> – [ANDREJ KARPATHY]
